

WELCOME TO MY WORLD

PORTFOLIO DEIH 2025

WHO IS DEIH?

**I began painting graffiti in 1993/94
I still do.**

I studied Fine Arts in Valencia.

**My style and
interests have changed
but I never have stopped my activity
in the streets as a mural artist.
My work has its own narrative as a free
way to relate the world.**

**I have a degree in Fine Arts - San Carlos,
UPV - Valencia. 2003**

**Since then, my professional and artistic career
has focused and developed in mural painting, and
Artwork production, thus participating in
many international exhibitions and festivals
and holding workshops and conferences in both
independent
and institutional organizations.**

**Since 2012, I have been developing a project called
THE INSIDER on the street, which is draining
its discourse to all the other areas in which I work.**

PUBLICATIONS.

My work has been shown in some of the most important magazines and books of the street art scene.

I am specially proud to be part of Heavy Metal magazine because this one was a strong influence in my childhood that you can see still now in my work.

I draw

lost pilots

Cast aways
Lost pilots in strange planets.

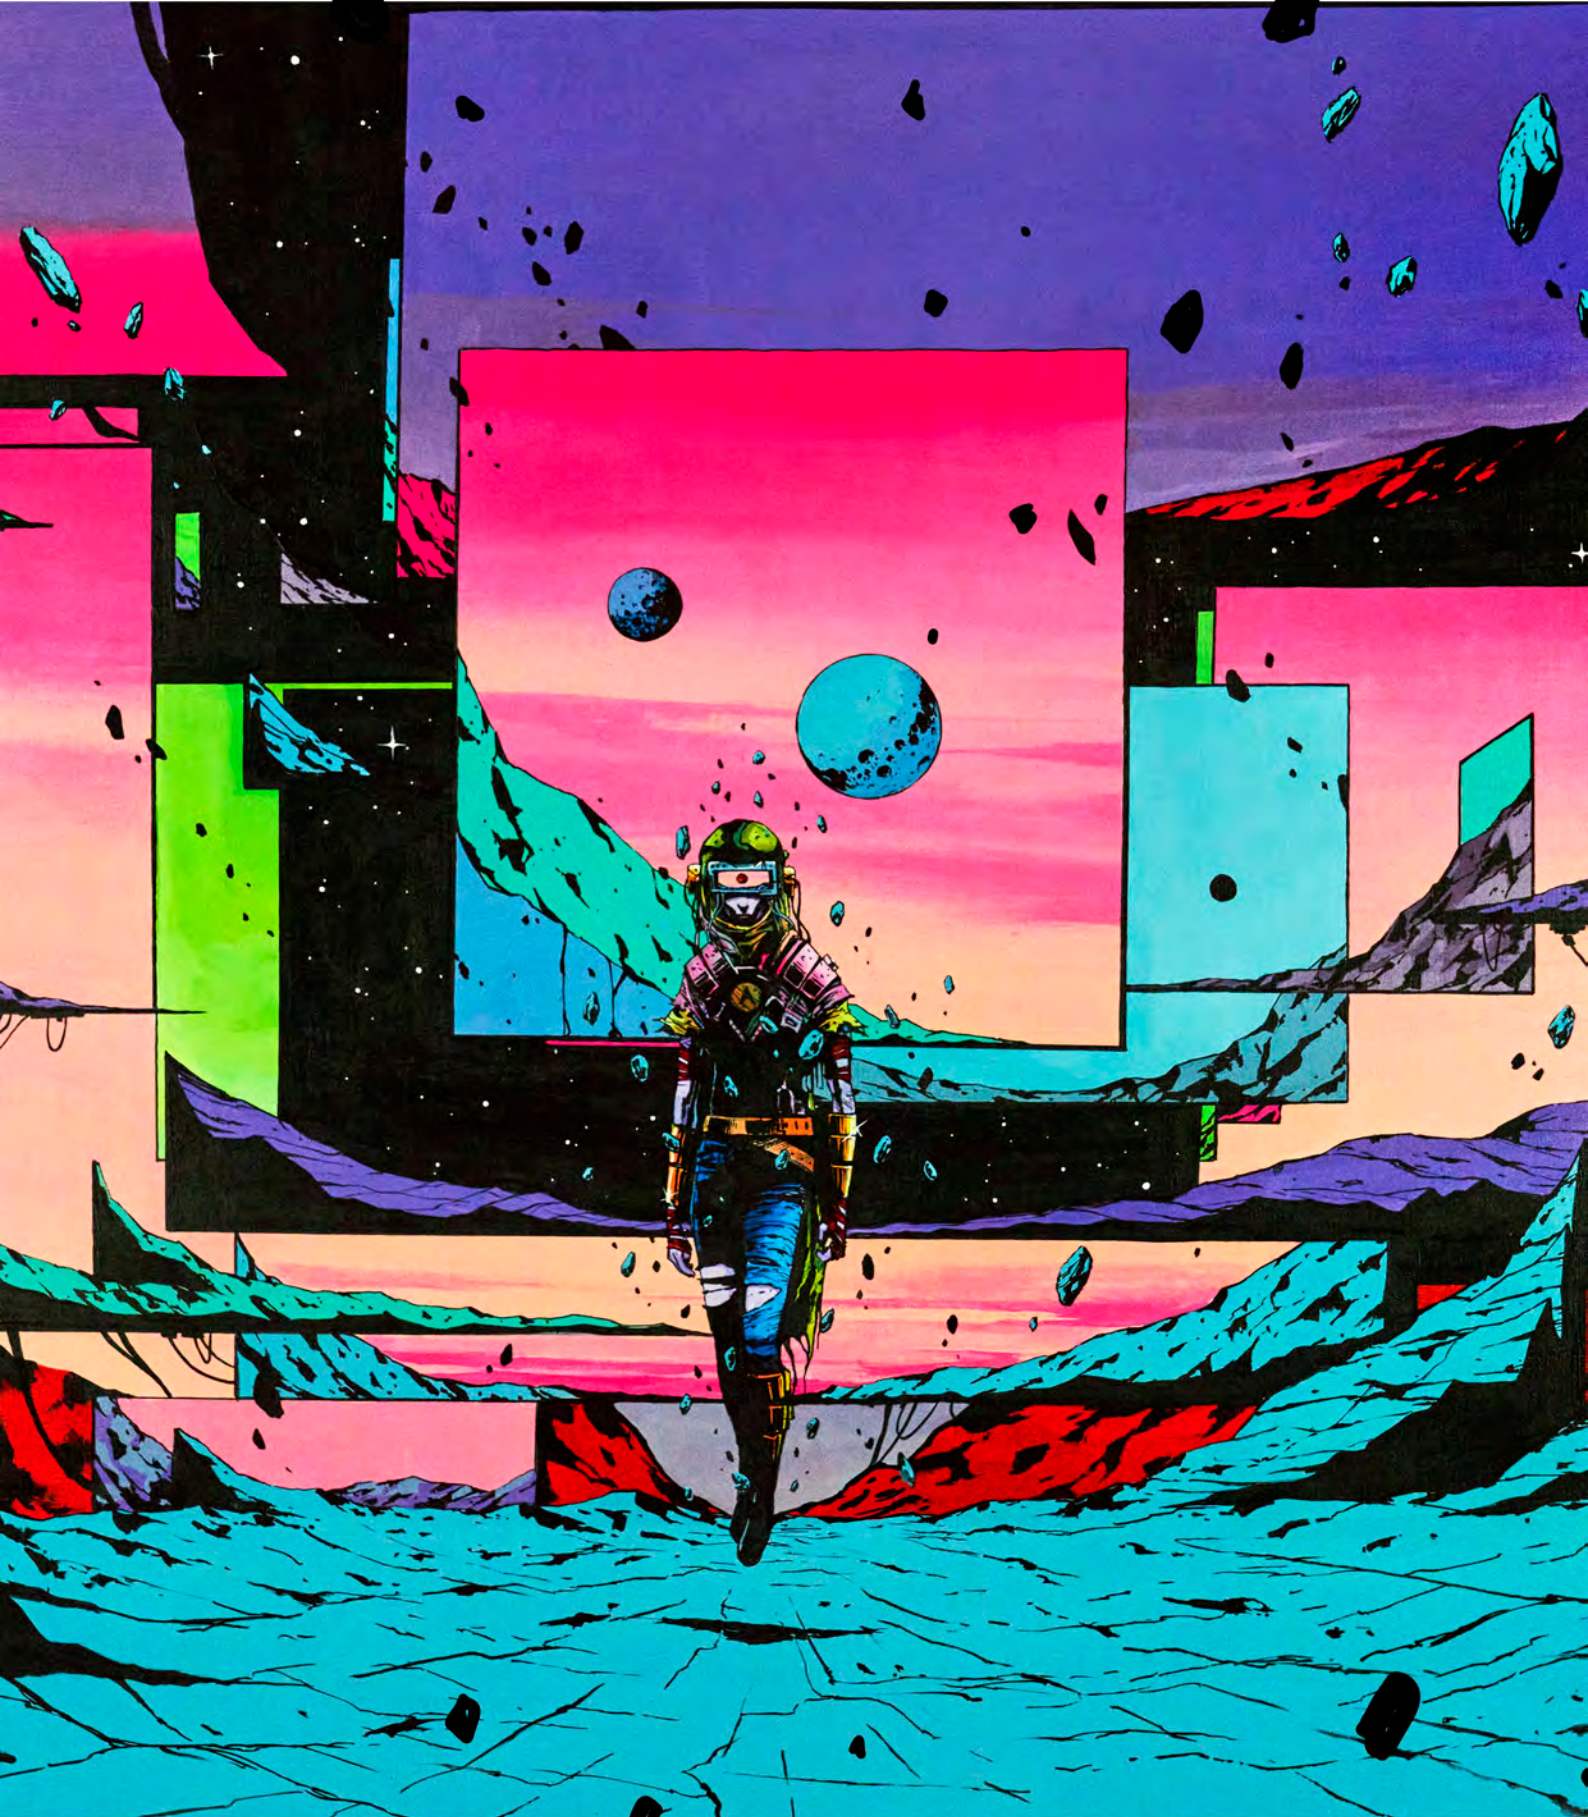

They are trying to return home but the planet is their own mind

A place to understand and continue the journey

MY ART IS LIKE A WORLD THAT IS ALWAYS EXPANDING.

All these years I was caring of my vision,
making it grow going with the flow.
Things just happened organically.

AND I LOVE THIS.

Now, I would like to share my art with more people that could enjoy it, that could connect with it. Making murals and shows.

My work is usually sold out, when I have good partners. There are a lot of people living with it in their homes.

I would like to expand it more and more, and I think that working with people like you is the right way to take the mission beyond the edge. Just contact me if you are open to create something together. I think that would be amazing.

THANKS

FOR

YOUR TIME.
